

INFARM

Grow
where
you are

DEVELOPING URBAN FARMING NETWORKS

INFARM is pioneering on-demand farming services by distributing smart vertical farms throughout the city, directly where people live and eat.

ENJOY OUR PRODUCE.

We grow fresh, flavorful, nutritious and beautiful plants, year round.

- Superior color, aroma and taste
- Clean produce, ready to eat
- Non-GMO, organic seeds
- Pesticide-free
- Consistent, season resistant supply

ENHANCE YOUR CREATIONS

We work with you to grow unique plants suited to your brand, recipe or plating concept.

- Tailored plant features (size, color, flavor)
- Rare and heirloom species

Have you ever tried Peruvian mint, ice plants or baby daisies?

THE RESTAURANT GARDEN

“ The idea of a garden in the city, well maintained, allows us to keep in constant contact with nature.

One way to bring the countryside to Central and experiment directly with new product varieties”

– **Virgilio Martinez | Chef-owner of Lima’s Central, voted Latin America’s best restaurant**

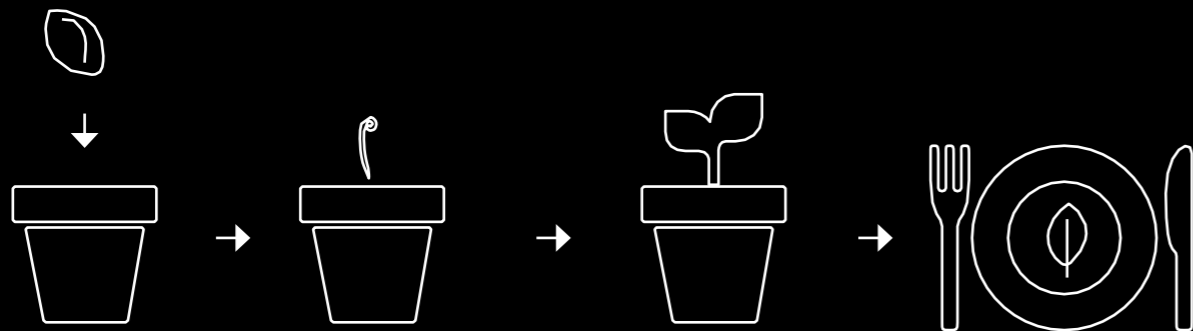

LEARN ABOUT OUR FARMS

Our smart, modular farming units can be stacked to meet any space or demand.

The farms are maintained by our dedicated team of growers and controlled through our central farming platform.

- Patented technology
- Biomimicry design
- Efficient from the first square meter
- Proprietary growing recipes for plant vitality

GROW WHERE YOU CHOOSE

Pay a monthly subscription fee for farm capacity

Farming hub

Use INFARM as your selected supplier for fresh produce.

- We can work with you to develop a tailor-made assortment of fresh produce
